

Photovoltaic panels for zip lines

Overview

Search for a city, state, or zip code to see solar potential and impact across entire geographic areas. We currently have solar data for portions of 50 states and Washington DC. Thanks to new safety standards (UL 3700) and a wave of state-level legislation sweeping the country, more and more apartment dwellers and renters are finally gaining access to the benefits of solar power. This guide breaks down how balcony solar works, why it's growing in popularity, and how to. With ZipLine, you get universal polycarbonate clips that fit every module frame. Q: These products are made of plastic, will they last over time?

A: This is a great question! The vast majority of polymers aren't designed for PV and to withstand harsh UV for 25+ yrs. Our weatherproof modules are the strongest commercially available and integrate easily into beautiful, highly efficient canopies, awnings, and walkways.
