

Sierra Leone Solar Mobile Project

Overview

State House, Freetown, Thursday, 5 June 2025 – In a landmark step toward sustainable development and inclusive energy access, His Excellency President Dr. Julius Maada Bio is set to officially launch the Salone Off-grid Renewable Energy Acceleration Initiative (SOGREA), a €34. A new SLE 830 million (EUR 34mMillion) initiative funded by the European Union will further advance Sierra Leone's vision of access to sustainable energy. The initiative will deliver sustainable, affordable energy and create opportunities for all across the nation. The Government of Sierra Leone, through the Ministry of Energy and with financing from the World Bank, commissioned a. Sierra Leone has taken a significant step toward improving electricity access with the launch of the Regional Emergency Solar Power Intervention Project (RESPITE). Backed by the World Bank, this transformative initiative will bring clean, renewable energy to underserved regions across the nation. Freetown, Sierra Leone – 13 December 2024: The Government of Sierra Leone has prioritized energy development in key national strategies to meet the growing demand for electricity and to address the need for new generation capacity. To meet the growing demand for electricity in rural communities.

Sierra Leone Solar Mobile Project

President Bio Commissions 1MW Solar Power Plant in Moyamba ...

ESLEAP aims to increase energy access across Sierra Leone through a dual approach: the installation of mini-grids in strategic communities and the deployment of stand-alone solar ...

Sierra Leone: \$52m for large-scale grid-connected solar power IPP

This project will increase the operational domestic electricity supply by 30% in Sierra Leone, channelling it to commercial and industrial entities, public institutions and households ...

Sierra Leone Gets its First Large-Scale Grid-Connected Solar IPP ...

This greenfield 50MW solar power project, developed by Frontier Energy and Planet One, will be the country's first large-scale grid-connected solar Independent Power Producer (IPP).

Empowering Rural Communities: Solar Mini-grids Illuminate Sierra

Leone

This milestone project, implemented by Off-Grid Power * (funded by PIDG company, InfraCo Africa) aimed to provide first-time electricity to 6,657 households & businesses in Sierra Leone, making it ...

Sierra Leone launches EUR34M solar project for rural energy access

This EUR34 million initiative, equivalent to approximately 830 million New Leones, aims to expand energy access in rural areas by deploying at least 5.2 megawatts peak of solar generation capacity through ...

Sierra Leone's President Julius Maada Bio To Launch 830 Million New

The project was developed in partnership with UNOPS, with a focus on enabling private sector entities to develop, finance, own, and operate solar minigrids.

Sierra Leone Solar Project to Power 28 Underserved Regions

Discover how Sierra Leone's RESPITE project, backed by the World Bank, is

installing 28 solar power mini-grids to replace diesel generators and bring clean, reliable energy to thousands.

250605 Sierra Leone launches solar mini-grid energy project

This landmark initiative, funded by the European Union and implemented by UNOPS and its hosted entity, Sustainable Energy for All (SEforALL), is a significant stride toward Sierra Leone's goal of ...

Sierra Leone Launches EUR34M Solar Mini-Grid Project to Power 60 ...

Backed by major development partners including the European Union (EU), the United Nations Office for Project Services (UNOPS), and Sustainable Energy for All (SEforALL), the project ...

Sierra Leone Adopts Results Based Financing Mechanism for Solar ...

In Sierra Leone, we are proud of our record of offering practical solutions to the government in their drive for clean

energy access, by helping set-up solar mini-grids across the country.
