

# Singapore Leaf Energy Storage Power Station Project

## Overview

---

Construction of the 285MWh giant container-like battery system was built in just six months, becoming the fastest BESS of its size in the world to be completed. As a result of the project, Singapore has reached its BESS goal of over 200 MWh of energy storage capacity three. Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery storage project in Southeast Asia. The opening was hosted by the 200MW/285MWh battery energy storage system (BESS) project's developer Sembcorp, together with. Sembcorp has successfully piloted a battery stacking solution at the nation's largest operating battery energy storage project, while Mitsubishi has announced plans for Singapore's first battery-backed combined cycle gas turbine (CCGT) power plant. The Energy Market Authority (EMA) appointed Sembcorp Industries to build, own and operate these ESS to enhance the resilience of our energy supply and power grid in June this year. The ESS is currently being installed across two sites on Jurong Island and spans two hectares of land.

## Singapore Leaf Energy Storage Power Station Project

---

### Singapore Leaf Energy Storage Power Station Project Powering a

This 200MW/200MWh battery storage facility isn't just another infrastructure project - it's the missing piece in the puzzle of renewable energy adoption. Imagine trying to power Marina Bay Sands with ...

### Southeast Asia's largest energy storage system officially opens

This large-scale ESS marks the achievement of Singapore's 200MWh energy storage target ahead of time. It will complement our efforts to maximise solar adoption by storing and ...

### Singapore upgrades power sector with solar & BESS

Singapore's government and the Energy Market Authority (EMA) have announced significant upgrades to the power sector, including potential expansions of Southeast Asia's largest ...

## Battery Energy Storage Systems

## Development

As a result of the project, Singapore has reached its BESS goal of over 200 MWh of energy storage capacity three years ahead of schedule. Singapore's new BESS will help mitigate the ...

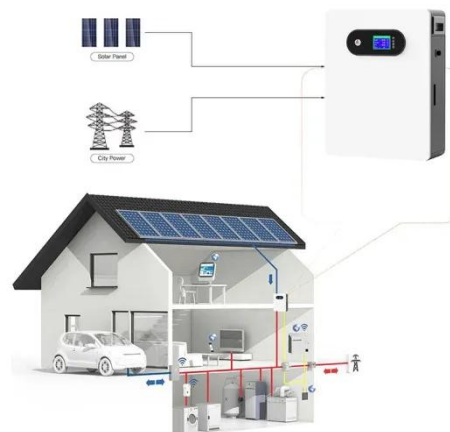

### Singapore's grid-scale BESS ready by 2029

PacificLight Power Pte Ltd (PLP), a subsidiary of Meralco PowerGen Corp. (MGen), is building a new 600-megawatt (MW) gas-fired plant on Singapore's Jurong Island, which will feature ...

### Sembcorp, Mitsubishi announce two battery storage firsts for Singapore

Sembcorp has successfully piloted a battery stacking solution at the nation's largest operating battery energy storage project, while Mitsubishi has announced plans for Singapore's first ...

### Singapore commercial off-grid energy storage power station

The power station, with a 300MW system, is claimed to be the largest compressed air energy storage power

station in the world, with highest efficiency and lowest unit cost as well.

## SINGAPORE LAUNCHES LARGEST ENERGY STORAGE SYSTEM IN

Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery storage project in Southeast Asia.

## Energy Storage Systems

Built across two sites on Jurong Island, our ESS enhances Singapore's grid resilience by mitigating the impact of solar intermittency as the republic progresses towards achieving its 2030 solar target of at ...

---

## Southeast Asia's biggest BESS officially opened in Singapore

Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery storage project in

Southeast Asia.
