

Solar Power Boss

Overview

Built to house EG4 hybrid inverters and EG4 AllWeather batteries, it provides a reliable solution for whole-home backup, off-grid living, and light commercial use. Whether you're securing backup power for outages or setting up an independent energy system, the BOSSBox makes it simple. Common Uses: Backup power for essential devices, Off-grid power for cabins, sheds, or workshops. Boss Energy has comprehensive knowledge for all things renewable energy. Are you ready to make the transition from fossil fuels to renewable energy?

We handle projects throughout the Southeast. Door delivery microgrids + personal cell towers. Custom solar panels for any project. Whether you're securing. EG4's new GridBOSS and FlexBOSS pair feel like the kind of practical innovation the solar industry actually needed. They're not the flashiest pieces of equipment, but we think they can be incredibly useful for a lot of solar and backup power systems. In short, it's a practical way to take charge of your energy.
