rgy nt c s f t. Solar energy is a renewable and sustainable form of energy harnessed from the sun's radiation. It is a clean and abundant energy source that holds tremendous potential to address the world's growing energy needs while mitigating environmental impacts. These panels contain photovoltaic cells that absorb sunlight and release electrons, generating. Define and explain the terms: (a) Irradiance (b) Irradiation (c) Insolation. Identify the regions of UV, Visible and Infrared bands in the sketch. What is net metering in the context of solar energy?

18.
