Explore SolaraBox's solar container product lineup—modular, scalable, high-efficiency systems. Download specs, compare models, request quote. The semi-mobile solar solution for your 6 months to 10 years projects. The Mobil-Grid ® is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. Designed for rapid deployment and all-terrain applications, this self-contained solar system delivers reliable off-grid power to areas where conventional infrastructure is limited, damaged, or non-existent. These systems can be paralleled up to 14 units if a larger battery storage system is required. What is A 500KW Megatron battery.
