

Solomon Islands solar Energy Storage System Branch

Overview

The Solomon Islands Renewable Energy Development Project will finance two solar farms and a utility-scale grid-connected energy storage system on the Solomon Islands. Superfly is Solomon Islands only quality focused solar energy company. We only use lithium batteries; and we stick to quality components from manufacturers like Deye and. We innovate with solar photovoltaic plant design, engineering, supply and construction services, contributing to the diversification of the energy matrix in our. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems. A project is now underway.
