

Spain energy storage orders surge

INTEGRATED DESIGN

EASY TO TRANSPORT AND INSTALL,
FLEXIBLE DEPLOYMENT

Overview

The surge in storage demand reflects the growing need to integrate higher volumes of renewable energy into an increasingly electrified system. In December alone, renewables produced 11,359 GWh, accounting for 48.2% year-on-year rise in. Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. 14 GWh under a European Regional Development Fund program. From ESS News Spain's Instituto para la Diversificación y Ahorro de la Energía (IDAE) has issued a provisional funding proposal for the. The government of Spain has chosen the 143 energy storage projects that will receive capex support from an EU-backed scheme, totalling nearly 9GWh of capacity.

Spain energy storage orders surge

Spain allocates EUR840m for storage projects, passes grid decree

The government of Spain has chosen the 143 energy storage projects that will receive capex support from an EU-backed scheme, totalling nearly 9GWh of capacity.

Spain sees 37 GW of grid-scale storage requests, signalling a shift in
