

Surface polishing of solar panels

Overview

Polishing a solar panel requires the right product and the right technique. DO NOT use any polish, but use a specific polish designed for plastics such as the Novus range or Plexus or 3M. If you use a power polisher it MUST be on very low. To effectively polish the surface of aged solar photovoltaic panels, there are several essential steps to follow. However, their efficiency hinges on a clean surface. All REC panels have been designed for easy installation and minimal maintenance, however, dust, pollen, leaves and other contaminants often find their way onto the panel and soil the surface. This not only diminishes your.
