

Tajikistan electric vehicles evs

Overview

According to the Ministry of Transport, approximately 18,000 electric vehicles (EVs) were imported into Tajikistan in 2024. Electric mobility is emerging as a strategic opportunity for Tajikistan to advance sustainable transport while strengthening national energy security. As electric vehicle (EV) adoption accelerates, the deployment of charging infrastructure introduces new interactions between the transport and power. Tajikistan is seeing a steady decline in LPG imports, driven by a growing shift toward electric vehicles; illustrative photo: Dushanbe Administration. Ivana Zivkovic, UNDP Regional Director for Europe and the CIS spearheaded the launch of the new eco-friendly car. Dushanbe, 28 February 2024 - As a global leader in the fight against climate change.
