

Tajikistan energy storage orders 2025

Overview

Several small- and medium-scale projects were commissioned in early 2025, including: The 11 MW Sebzor Hydropower Plant (HPP). 62 MWh storage systems in Murghab. Four small hydro plants totaling 451 kW in Darvaz and Rushan. Tajikistan's theoretical hydropower potential is estimated at over 527 billion kWh annually—enough to meet Central Asia's energy consumption three times over. The Roghun Hydropower Project is the centerpiece of Tajikistan's energy strategy. The agreements include three protocols and two memorandums signed between the ministry and both domestic and international partners, The. Canada, Latin America, and Asia Pacific. 648 According to articles 4 and 12 of the Law of the Republic of Tajikistan "About strategic planning and the state forecasting" the Government of the Republic of Tajikistan decides: 1.
