- Renewable Energy Integration
- Modular Design for Flexible Expansion

500MW! Tajikistan's First Large-Scale Solar Project Signed

This marks the official launch of Tajikistan's first large-scale solar power project in history and represents a critical step in the country's strategy to achieve energy diversification and green ...

Tajikistan to launch first 500 MW solar power project

Tajikistan will implement its first large-scale 500 MW solar power project with two 250 MW plants in Asht and Jayhun districts, aiming to boost energy independence and renewable energy ...

Tajikistan launches first 500 MW solar energy project

The Government of Tajikistan and Ayon Energy LLC have signed an investment agreement to build and commission two major photovoltaic power plants, marking the country's first ...

Tajikistan Unveils Its First Major

Solar Energy Project

Tajikistan has taken a significant leap towards a sustainable future by commissioning its first large-scale solar energy facility. Located in the Sughd region, the solar power plant boasts a ...

- LiFePO₄ Battery, safety*
- Wide temperature: -20~55°C*
- Modular design, easy to expand*
- The heating function is optional*
- Intelligent BMS*
- Cycle Life: > 4000*
- Warranty: 10 years*

Tajikistan to implement first 500 MW solar project

Tajikistan will implement its first major solar energy project, with a total capacity of 500 MW. The corresponding investment agreement was signed between the Government of the Republic ...

Tajikistan to develop its first 500 MW solar energy project

This marks the first large-scale solar energy project in Tajikistan, with a total installed capacity of 500 MW, to open a new stage in the country's development of green energy and modern ...

Tajikistan begins its first large-scale solar power project

Tajikistan is set to implement its first large-scale solar energy project with a total installed capacity of 500 MW.

Tajikistan launches first large-scale 500 MW solar power project

It is important to emphasize that this solar power project is being implemented for the first time in the history of Tajikistan at such a large installed capacity, serving as a clear example of the ...

Tajikistan launches its first large-scale solar energy project

An investment agreement between the Government of Tajikistan and Ayon Energy LLC to implement the country's first large-scale solar energy project was signed in Dushanbe on January 13, ...
