

Tokyo s new outdoor solar power hub

Overview

Setagaya has unveiled Japan's first urban solar power plant using a repurposed school pool. The 'Jirijiri Reuse Power Station' will utilize recycled solar panels. Have you ever wondered where Tokyo's new outdoor power supply field is located?

Nestled in the Koto Ward, this cutting-edge facility spans 8,000 square meters near Tokyo Bay. Designed as a hybrid energy solution, it combines solar panels, battery storage systems, and smart grid technology to power. To encourage the generation of renewable energy, the Tokyo Metropolitan Government introduced a regulation mandating the installation of solar panels on the roofs of new detached buildings starting in April 2025. An official from Chiyoda Ward gives a speech at the opening ceremony of the pilot project to test a trailer equipped with power-generating. 1: Reduce greenhouse gas emissions in Tokyo to net zero by 2050. For more information on the mandatory solar power generation installation measure, please view the Ordinance Revision to Halve Carbon Emissions (Carbon. In an inspiring development for renewable energy in Tokyo, UPDATER, a company based in Setagaya, has officially named its new urban solar power plant the 'Jirijiri Reuse Power Station.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

This is how Tokyo plans to become a sustainable city of the future

Tokyo's municipal government has announced plans to build a high-tech, sustainable city on reclaimed land in its bay area. New technologies will be used to make the city carbon-neutral and ...
