

UAE energy storage battery custom manufacturer

Overview

We are experts in the design and installation of solar panels, battery storage and electric car charging systems and have a proven track record for delivering green energy results for businesses looking for bespoke low carbon electricity generating systems. Identify and compare relevant B2B manufacturers, suppliers and retailers Max. With certified production in Jebel Ali Free Zone, we design systems to deliver safe, efficient, and scalable energy—customized to the needs of industry and infrastructure. Designed for efficiency, reliability, and sustainability, our products support a wide range of applications, including solar. With deep expertise in the manufacturing and supply of solar inverters, battery energy storage systems (BESS), EV chargers, solar parking sheds/carports, and OEM solar energy equipment, we deliver complete renewable energy solutions tailored to the needs of industrial, commercial, and residential. At ENGIE, we are not only focused on reducing emissions but also establishing a clean, affordable, and dependable energy system for our customers. While renewable energy offers a clear solution and has streamlined electricity production to some extent, it poses a significant challenge in meeting. StorEn is an official partner in energy storage devices built on CATL battery systems - a world leader in the production of lithium energy sources for electric transport and energy. In 2021, StorEn signed an agreement on the exclusive distribution of products on the territory of MENA (Middle East).
