

# Using cigarette boxes to generate solar power

## Overview

---

Creating a solar car using a cigarette box involves a series of innovative and creative steps. a miniature solar panel for power, 3. lightweight wheels for mobility. By following these detailed. In this video I show how to take a standard type 24 battery Box and convert it into a solar generator that has the capability to output USB and 12 V cigarette lighter. This unit uses lifepo4 battery technology rated at 4,000 cycles making this solar power generator capable of running on a daily. Anyway to get Will's solar generator charged by cigarette plug?

But I am intresting in trying to charge battery via the cigarette plug when truck is moving?

Like the jackery can be charged?

buliding for my mother who needs a small portable power. The battery box will be portable making it easy to use for emergencies at home.
