

# Villagers become indebted for solar power generation

## Overview

---

Over 16,000 families of the village have risen as one in protest against Andhra Pradesh government's move to allocate 8,348 acres of fertile agricultural land to Indosol Solar Private Limited for a large-scale renewable energy project. Around 80 kilometers from Gandhinagar, the capital of Gujarat, Modhera went from being a little-known tourist spot to becoming India's first fully solar-powered village in October last year. In Modhera, no one pays for electricity any more. (Representational Image: DC) Nellore: A storm is brewing at. The villagers are demanding compensation, promised jobs, rehabilitation and scrapping of the solar project. Photo: Adil Hussain/Maktoob Ram Sahodev Gorai quietly walks at the protest site as his frail hands drag a thick stick for balance. At. India is home to 1. As the world's third-largest emitter of greenhouse gases, India's energy transition will significantly impact the planet's future. At the Solar Village Project (SVP), we address these pressing issues by. Picture 3: While solar is celebrated as the holy grail of clean energy, villagers became concerned about the negative impact of silica mining by a foreign company along Bangau Beach. Photo source: Asia News Picture 4: And where do end-of-life PV panels go?

A pile of discarded PV in the kampung. A canal built on the river Narmada, an automobile factory unit near the village, and now.
