Overview

The average wholesale price per container dropped to \$18,500-\$24,000 in Q2 2024, down 14% from 2023 peaks. China dominates this space, offering 40-foot containers with 550W monocrystalline modules at \$0. Ocean freight rates are rising in Q2 2025, at an alarming rate—again. According to Freightos, this spike isn't just a seasonal fluctuation—it reflects deep, structural disruptions across the maritime logistics. Containerized Freight Index fell to 1,266.56 Points on Feb 22, down 3.22% compared to the same time last year, according to trading on a contract for difference (CFD) that. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices. InfoLink's wafer price quotes exclude additional costs from special specifications or requirements (e.g. But here's the catch: Tier-1 suppliers like Jinko Solar now bundle.
