

What does outdoor base station communication equipment include

Overview

The base station's RF circuitry is housed in a small outdoor module known as a remote radio head (RRH) or remote radio unit (RRU). RRH performs all RF functions such as transmit and receive functionality, filtering and amplification. A typical communication base station combines a cabinet and a pole. Meanwhile, the pole serves as a mounting point for antennas, Remote Radio Units (RRUs), and. An outdoor communication cabinet is the core infrastructure that supports the operation of outdoor communication networks. It needs to ensure the stable operation of equipment under complex environments such as high temperature, low temperature, sand, and humidity. This compact, rugged, and versatile outdoor base station offers uninterrupted connectivity in challenging conditions, with multi-technology, multi-frequency, and multi- connectivity all in one compact box.
