

What to do if there is no photovoltaic panel on the roof

Overview

If you're wondering how to get solar power without drilling into your roof or going through a complex setup, you can use a portable solar generator. Not every home can choose rooftop solar system installations. Maybe you live in an apartment where drilling into a shared roof isn't. The most obvious way to get solar energy to your house is to install panels on your roof. But roof panels have one big disadvantage: They are attached to your roof. What Does "Solar Without Panels" Mean?

Simple.
