

Wind-resistant outdoor photovoltaic energy storage cabinet for cement plants

Overview

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation capabilities to scale capacity effortlessly. NextG Power introduces its Outdoor Energy Storage Cabinet —a compact, high-performance system delivering 105KW power and 215KWh capacity. This system utilizes premium battery technology and intelligent thermal management to deliver optimized performance for commercial and industrial. Secure your off-grid power needs with our outdoor cabinet energy storage system. Designed for resilience, it offers high-capacity energy storage in a weather-resistant cabinet. Ideal for outdoor installations, the robust structure withstands extreme weather conditions. Scalable from Residential to Utility. In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy.
